Front Door to Procure

Key Benefits

- ✓ **Drive adoption with effortless routing.**
Delight stakeholders with an intuitive platform that automatically routes requests to the right destination in seconds.
- ✓ **Ensure compliance with smart controls.**
Mitigate risk through intelligent workflows that connect the right teams for approvals and schedule periodic reviews.
- ✓ **Gain organization-wide visibility.**
Transform project management with real-time tracking and enriched supplier intelligence.
- ✓ **Stay productive anywhere.**
Eliminate bottlenecks with on-the-go mobile access that keeps approvals, tasks, and team communication flowing.

Levelpath is a unified AI-native platform that delivers a delightful front door-to-procure process for everyone across the business. Using built-in intelligence, Levelpath automatically guides stakeholders to the right procurement path every time, simplifying complex workflows and reducing procurement friction for all users.

Launch Intake in Seconds

Make intake conversational with the AI Front Door. Natural language input with contextual awareness ensures each workflow begins with the right information. Automatically route those requests to the right place by directing stakeholders to where they need to be, whether it is catalogs, procurement, third-party apps, or company policies. Want to highlight preferred suppliers? Easily provide teams with your preferred list with just a few clicks of a button. No more searching, no more second-guessing, just clear, confident purchasing every time.

Make Project Work Easier

Levelpath's user-friendly platform makes it simple to track, collaborate on, and execute projects anytime, anywhere. Connect IT, legal, finance, security, risk, and other key teams within the platform based on request type, ensuring compliance every step of the way. Chat with Levelpath's AI to get more information on your request, giving stakeholders visibility into where their requests are and what they still need. Everyone can access projects at any time with native mobile apps that allow you to manage approvals, complete tasks, and collaborate on the go without delays.

Unlock a 360° View of Your Suppliers

Track all supplier activity, automate enrichment, and ensure compliance to transform supplier relationships into strategic advantages. Levelpath's AI automatically enriches supplier data and maps all your business relationships, giving stakeholders instant access to the insights they need, when they need them. This complete visibility empowers you to strategically direct spend to preferred suppliers, efficiently onboard new suppliers based on business needs, and automatically schedule compliance reviews to minimize risk. Streamline your RFP process by enabling suppliers to submit questionnaire responses directly within the platform, eliminating email chaos and delivering structured, decision-ready data to your team with minimal effort.

“

Not only did we launch our first RFP in 24 hours, but we also asked the AI Assistant to write it up, and it wrote a 35 question RFP that is way better than what we would have come up with.
